

Take the World

Tim Hughes

The world is not enough for me
The world is not enough for me
The world is not enough for me, yeah
The world is not enough for me
The world is not enough for me
The world is not enough for me, yeah
The world is not enough for me...

You could take the world just give me You
You could take the world just give me You
You could take the world just give me You
You could take the world just give me You, yeah

The world is not enough for me
The world is not enough for me
The world is not enough for me, yeah...

You could take the world just give me You
You could take the world just give me You
You could take the world just give me You

All I want is You, all I need is You, yeah
All I want is You, all I need is You

You could take the world just give me You
You could take the world just give me You

All I want is You, Jesus I love You
All I have is You, all I want is You
