Mysterious Times

Tina Cousins

Mysterious life
We're all moving around
Dancing the rythm of life
Time
Mysterious time
We're all counting the hours and days
'till the end of all time

Were all feeling the change But we don't know why Choose one direction just one for time Don't say I'm thinking too much If you see what's behind

And these are mysterious times Mysterious times No trick of the mind

For this moment I feel Like we live in Mysterious times

If you see what's behind
These are mysterious times

I feel my soul For this moment Nobody can stop me from flying so high

I feel so real
In a world of illusion
You only see what you feel

Were feeling the change
But we don't know why
Choose one direction just one for time
Don't say I'm thinking too much
If you see what's behind

And these are mysterious times Mysterious times No trick of the mind

For this moment I feel Like we live in Mysterious times

If you see what's behind These are mysterious times

If you see what's behind These are mysterious times
