

Ggotta skip this town get it on the
Way never can look down gotta lead
The way i'm jokin' i'm chokin' lookin'
Far beyond lookin' way up high paint
The sky so black i will never die rippin'
It out of me it just be you just might
Die live your life in agony what i say
Is what i mean i might be tempted don't
Treat me like a dog run fast so hard
Now i cannot wait this is the test
Of my endless fate pleased to meet
Ya' treat to beat ya goddamn hippie
All of your young will die you never
Answer your makin' me insane ya
Goddamn idiot i'm not sure it's not
Clear let me find an answer for you
I will not say it can't be done i've
Missed it pissed it kissed it away
Now there's silence only silence
Lonely silence i don't hear anyone
No turning back i've gone too far
Cut thru my skin i can't be who you
Are i guess i don't fit in goodbye
