

Maggots And Riots

Today Is The Day

Love=Death=Pain
I been real good big suprise
Black on your face
Paints my smile
When will you learn
Denial
You know you're wrong say it
Knows strong pressure
For too long
God knows your law
Under pressure
In my eyes I am strong
I am king
Black orange swirl
Shout at me
I'll be you're master
Don't you think
It's love your after
