

## Sadness Will Prevail

Today Is The Day

I tore it down to lift it up off the  
Ground it makes me it brings me down  
And all i am on the ground my cover  
That you have blown i wish this path  
I did not go it makes me it brings me  
Down and all i am on the ground at  
Night i wrap myself in pain and i'll  
Never see again
