

Chance for Us

Todd Rundgren

Too much water under a broken bridge
Evil words I couldn't bear
How much battery can a love endure
Before it turns into tears

Is there any life left in this love
Or should we move on and let it die?
But if there's still flame that I can fan
I'm gonna try
I'm gonna try one more time

Is there still a chance, a chance for us
Or has too much time gone by?
Is there still a chance, a chance for us
Or did the music die?

Can you bring back that sweet magic
After they show you it was just a trick
Can you bring back heart, can you bring back health
To a love that's grown so sick

Maybe we should face the bitter truth
Cut our losses and say goodbye
But if you think there's something we can save
I'm gonna try
I'm gonna try one more time

Is there still a chance, a chance for us
Or has too much time gone by?
Is there still a chance, a chance for us
Or did the music die?

...
