

Lay down your arms
You can't fight this war
Do what feels good
You know, you know you should

Slipping in and out of time again

You've come so far
Just as you are
The birds are taking flight
You'll be, you'll be alright

Slipping in and out of time again

Maybe you're not the one I want
Maybe you're just the one I got
Maybe that's just the thing I need
Maybe you're still the one for me
Maybe you're not the one I want
Maybe you're just the one I got
Maybe that's just the thing I need
Maybe you're still the one for me

Slipping in and out of time again
Slipping you know that I need a friend
Slipping in and out of time again
Slipping you know that I need a friend
