

Dance in the Kitchen

Tom Paxton

I love the candle light, I love the soft violin
I love the dark corner table, the bottle of wine
But when I'm holding you, just when the music begins
Honestly darling the kitchen will suit me just fine

Dance in the kitchen honey, dance to the radio
Right across the kitchen floor that's what they make 'em for
We'll dance again like we used to dance when love was new
Come on and dance in the kitchen honey, I wanna slow dance with
you

Isn't it strange just a couple of minutes ago
I was all down in the mouth about all my affairs
Then two things happened when I switched on this radio
This song began and sweet darling you came down the stairs

Dance in the kitchen honey, dance to the radio
Right across the kitchen floor that's what they make 'em for
We'll dance again like we used to dance when love was new
Come on and dance in the kitchen honey, I wanna slow dance with
you

Oh, dance in the kitchen honey, dance to the radio
Right across the kitchen floor that's what they make 'em for
We'll dance again like we used to dance when love was new
Come on and dance in the kitchen honey, I wanna slow dance with
you
