

Nothing but Time

Tom Paxton

We could talk for an hour without resting
And not a single sentence would be heard
I could tell in the morning you were leaving
And you didn't have to say one word

And you know better than I do
Just what you're hoping to find
Oh you've got a lot to think over
And I've got nothing but time

What you gave me I never dared to question
Why you loved me I guess I'll never know
From the very first moment that you touched me
You were making your plans to go

And you know better than I do
Just what you're hoping to find
Oh you've got a lot to think over
And I've got nothing but time

I will walk on down to the corner
I'll be watching from the corner of my eye
I wouldn't try to stop you from going
But I was never much for saying goodbye

And you know better than I do
Just what you're hoping to find
Oh you've got a lot to think over
And I've got nothing but time
And you know better than I do
Just what you're hoping to find
Oh you've got a lot to think over
And I've got nothing but time
