

Out In The Cold

Tom Petty

The day fell down, the air got cold
I walked out in the street
Daydreamed for a mile or two
Staring at my feet

Like a working boy, out of luck
Falling through the cracks
The night rolled in, I turned back home
A hard wind at my back

I'm out in the cold
(Out in the cold)
Body and soul
(Out in the cold)

There's nowhere to go
(Out in the cold)
I'm out in the cold
(Out in the cold)

When I woke up my brain was stunned
I could not come around
I reached out to grab my keys
And tumbled to the ground

I thought of you, starry-eyed
I wonder where we stand?
Did I just fall from your arms
Down into your hands?

I'm out in the cold
(Out in the cold)
Body and soul
(Out in the cold)

There's nowhere to go
(Out in the cold)
I'm out in the cold
(Out in the cold)

I'm out standing in the doorway

I'm out walking 'round
Hands in my pockets

I'm out in the cold
(Out in the cold)
Body and soul
(Out in the cold)

There's nowhere to go
(Out in the cold)
I'm out in the cold
(Out in the cold)
