

It's been 37 hours, 7 minutes, 30 seconds  
And you still haven't responded to me  
Got me on the edge of crazy  
But I'm not one for complaining  
I just wonder where the hell you could be

Tell me who you think you are  
Don't be playing with my heart  
Say what, what's it gonna be

'Cause I'm in love with you now  
Are you in, are you out  
'Cause I really need you here  
If you don't want me around  
Then don't come around  
And cloud up my atmosphere  
Fuck outta here

It's been 47 hours, 7 minutes, 30 seconds  
And now you're just responding to me  
Boy you must be suicidal  
Is that bitch right there beside you  
'Cause I know hell it couldn't be me

Tell me who you think you are  
I'm a motherfucking star  
Say what, what's it gonna be

'Cause I'm in love with you now  
Are you in, are you out  
'Cause I really need you here  
If you don't want me around  
Then don't come around  
And cloud up my atmosphere  
Fuck outta here

If you ain't feeling this just let me know  
I promise on everything I'll let you go

'Cause I'm in love with you now  
Are you in, are you out  
'Cause I really need you here  
If you don't want me around  
Then don't come around  
And cloud up my atmosphere  
Fuck outta here  
Fuck outta here
