

# I Belong to You

Toni Braxton

I wouldn't change  
A single thing about you baby  
You shower my world with your love

You got a way baby  
About cha baby  
That lets me know that  
There's no other man

You take care of home  
I was lost until I found you  
Refuse to live without you  
As long as you are good to me

I belong to you  
You belong to me  
I belong to you  
The love we share comes naturally

I used to think  
I knew love before I met you  
You love my defenses down baby

I let you in  
To my heart  
And you unlocked true  
love in me

I belong to you  
You belong to me  
I belong to you  
The love we share comes naturally

So hard to find true love baby  
Son't wanna live without you

I know this love is forever  
Cause it shows in every little thing you do  
Always make a way to see love through

I belong to you  
You belong to me  
I belong to you  
The love we share comes naturally
