

Drive

Tonight Alive

All along caught in a battle of right and wrong
Cause all I ever knew was to compromise
Be polite
But will I be biting my tongue for life? No.

So I'm gonna drive tonight
Until we see the light
And we'll say yea yea yea
No no no
My way on the highway
I'm gonna drive tonight
Away from the city life
Said I'm gonna drive tonight
Away from the city life

All we know we're beggin' for someone
to break the mold
Cause everybody else has forgot we ever
had the choice
But if we give in then
we missed the point, no

So I'm gonna drive tonight
Until we see the light
And we'll say yea yea yea
No no no
My way on the highway
I'm gonna drive tonight
Away from the city life

Well I believe in something
They don't understand
I'm leaving here to say
I'm done with you
holding me back

So I'm gonna drive tonight
Until we see the light
And we'll say yea yea yea
No no no
My way on the highway
I'm gonna drive tonight

So I'm gonna drive tonight
Until we see the light
Til' we see, til' we see, til' we see the light
And we'll say yea yea yea
No no no
My way on the highway
I'm gonna drive tonight
Away from the city life
