

Rainmaker

Tony Carey

All those things you carry you dont need
And all that air around you, you cant breathe
And all your stars are lying at your feet
And theres no more famous people left to meet

Tell me who will heal the healer when Im gone
And wholl be there for you my lonely one
And who will call the rain down from the skies
And who will light the fire in your eyes

Rainmaker,
Make it rain for me rainmaker
Make it rain for me right now
Make it rain for me rainmaker
Make it rain for me right now

Make it rain for me rainmaker
Make it rain for me right now
Make it rain for me rainmaker
Make it rain for me right now

Make it rain for me rainmaker
Make it rain for me right now
Make it rain for me rainmaker
Make it rain for me right now
