

# Welcome to England

Tori Amos

Do a dance for me  
Baby it is late still you pour me  
a tall one...  
Go on, let the liquid take off what you're on.

You've been down before  
Boy and I like this  
I'm in quicksand  
I am sinking fast

Perfect, heal it  
Because your other half has got himself  
A devil's excess or Access

Welcome to England, he said  
Welcome to my World

You better bring your own sun, sweet girl  
You gotta bring your own sun  
Don't you forget your  
Bring your own sun  
Just enough for everyone

Heels on, go on  
Bang a tango but do not get tangled  
Who can stay strong  
When they only give us lies to lean on

When your heart explodes  
Is it deathly cold  
You must let the colors violate the  
Backness the rest  
A magic world in parallel  
So leave your daily hell

Welcome to England, he said  
Welcome to my World

It's not a question, if I can  
Fight by your side  
And withstand  
Anything but  
But I forgot  
That you said, girl  
If you come...

You better bring your own sun, sweet girl  
You gotta bring your own sun  
Don't you forget your...  
Bring your own sun  
Just enough for everyone

Welcome to England
