Toro y Moi

[Toro y Moi:]

Man this vision got me startin up a biz
Why you think I got a space this big
Now I come off arrogant
Suck too much [?] like you my therapist

[Elijah Kessler:]

Where the fuck you go I did your line
Boy I never said you could jive
Then you took the other keys to my ride
I shouldn't have left you it was a lie
I got work in the morning
How I'm supposed to get there, do you not think I'm important (yeah)
Girl you is so important
I just had to go I'll explain it right in the morning (yeah)
I got a flight to Miami, 6:45AM I didn't plan it
I been in the same damn place I couldn't stand it
And if I could I would go to another planet
But I'm not coming back
Why the fuck you think I took my bag
I was in my bad

I got a flight to Miami, 6:45AM I didn't plan it
I been in the same damn place I couldn't stand it
And if I could I would go to another planet
