

Day One

Toro y Moi

I wanna make you want me
Won't you take it in
Don't try to look at my eyes, at the light
they weren't meant to hold you, sheets are [?]
you gave me words to hold onto
so I just have to make this for me

I wanna make my life your life
I'll wake up with you and I'll give you right
It don't matter if it's cold outside
Doesn't matter if it's day or night
Ooh

We were kids acting way too old
Hidden somewhere in the back room
Now we got it and it's just us
Now I, wanna, keep it, forever
