

Inside My Head

Toro y Moi

I left my baby down in San Francisco
I can never leave another one like her
Slowed down somewhere outside of Reno
Situations making me tired

I swear I spent most my night just looking
Up in the sky while my mind imagines
Given where I stand now, I'm alone in a crowd
Where about, I don't know, I couldn't tell you where I'll go

Got a tendency to stay inside my head
Wanna get a piece of what they have instead
Got a tendency to stay inside my head
Wanna get a piece of what they have instead
