

Don't Talk About It

Tove Lo

Safe with me, move so free, silently

Don't talk about it

Sweep it under the rug like we do, do

Don't talk about it

If you're sitting with us, then you're in, too

We don't talk about it

You're my [?], then you're mine, too

Know you're loving the highs

You get in-between the lines of a life you don't need
