

# This Time Around

Tove Lo

I used to take your breath away  
I used to make you love about anything  
I used to be your getaway, your getaway  
Your dream, I was everything you needed  
You used to lean your eyes on me,  
You used to open up and share your world  
You used to love yourself in me  
Let the hours pass or run them boys so fast  
But now, what I'm doing?  
No no, what I'm doing?

'Cause I don't even feel it, feel it  
Body's going colder with the distance now  
And I don't even mean it  
Got my hands all over you,  
But not this time around  
I'm always in so love, all in  
Till you lost your goal, and I'm thinking  
That you'd make me feel it  
Thought that I'd be different  
This time around  
This time around

We started as lonely hearts  
We started with the promise built on ice  
You said I was the missing part, looked into my eyes  
Said you're my fix for life  
But now, what I'm doing?  
I don't know, what I'm doing?

'Cause I don't even feel it, feel it  
Body's going colder with the distance now  
And I don't even mean it  
Got my hands all over you,  
But not this time around  
I'm always in so love, all in  
Till you lost your goal, and I'm thinking  
That you'd make me feel it  
Thought that I'd be different  
This time around  
This time around

Don't know what I'm doing  
This time around  
Don't know what I'm doing  
This time around  
This time around

Uuuuh  
'Cause I don't even feel it,  
Body's going colder with the distance now  
And I don't even mean it  
Got my hands all over you,  
But not this time around!  
I'm always in so love, all in  
Till you lost your goal, and I'm thinking  
That you'd make me feel it

Thought that I'd be different  
This time around  
This time around

Don't know what I'm doing  
This time around  
Don't know what I'm doing  
This time around
