

## Victims

Toxik

Faces Of Death, 1, 2 and 3  
Murder and violence on film  
Perverted acts that infest the world  
Is this really God's will?

Madman and butchers running the land  
With a cross on their chest  
And the good book in hand  
Pointing a finger at those who oppose  
Quieting the facts and truths undisclosed

Hatred, all of that is different  
Victims, of the ones that you trust  
Ignorance, controlling your actions  
Victims

Watch the TV, and you'll see the news  
The ends that our world is coming to  
Falsified glory, delusions of grandeur

A true patriot kills at will

Madmen and sadists make their demands  
With a cross on their chest  
And the good book in hand  
Dogs in high places deliver a curse, by splitting their  
Atoms, destroying the earth
