Anybody Else's Heart but Mine

She's history Don't ruin good beer with tears Get up off those knees She ain't coming back, Jack And if you think she will You're on the wrong track Hearts get broken every day And life goes on without her here It would be so clear if only it was

Anybody else's heart but mine I'd say hey, that's the breaks It'll mend in time I'd know just what to do If it was anybody else's blues If it was anybody else's heart, but mine

Hey, what's goin' on It's a little bit different When it's my love that's gone Now old platitudes Like find somebody else Now they just won't do I was so wise when givin' free advice To every body else But now hearing it myself I wish that it was

Anybody else's heart but mine I'd say hey, that's the breaks It'll mend in time I'd know just what to do If it was anybody else's blues If it was anybody else's heart, but mine

Anybody else's heart but mine I'd say hey, that's the breaks It'll mend in time I'd know just what to do If it was anybody else's blues If it was anybody else's heart, but mine...

Tracy Byrd
