

# Sing for You

Tracy Chapman

Sweet and high  
At the break of dawn  
A simple tune that you can hum along to  
I remember  
There was a time  
When I used to sing for you

Knew all the words to the popular songs  
With the radio on full volume  
I remember  
There was a time  
When I used to sing for you

Forget the chorus  
You're the bridge  
The words and music  
To every day I've lived  
There's nothing that I wouldn't give  
For one more time  
When I can sing for you

Soft and low  
When the evening comes  
Holding you sleeping in my arms  
I remember  
There was a time  
When I used to sing for you
