

I Learn the Hard Way

Trampled by Turtles

I learn the hard way
Or no way at all
You're out in the hallway
Braced for the fall
Let's just be together
Just me and you
We'll follow the weather
We'll know what to do

I'm not in a hurry
I always think twice
I try not to worry
And I try not to fight
But you got me shakin'
I can't sleep at all
I'm sure I'll get better
When it wears off

The water is rising
There's nothing out there for us...

It's loud in the city
Let's get out of town
The horizon is pretty
And I can't hear a sound
We'll take a long drive
On a warm summer night
I know you can't save me
But I know that's all right
