

# Hell of a Night

Travis Scott

Our first kiss in the livin' room  
That's a hell a way to end the night  
A hell a way to end the night  
We did drugs in the bedroom  
That's a hell a way to end the night  
A hell a way to end the night  
But she caught me fuckin' in the bathroom  
Rubbers all over the bathroom  
That's a hell a way to end the night, tonight

I left my girl in the south, but this gold in my mouth...  
Thought I wasn't of my head, all my niggas is dead...

It's a hell of a night for Heaven's sakes  
All you see is mountain and clouds, can't hit the brakes  
She hit me twice in the face, there goes the base  
She like to lift her nylon skirt to show the lace  
She say she love me but don't know what love is  
I lost love cause my daddy said it but ain't ever done shit  
Pain is love and love is hell  
I might need some bail if this shit don't sell  
Hand on my dick while I'm coastin' up the Fiji  
Slow motionin' through emotion just in case a nigga see me  
They'll come and feed you but that felt a little easy  
I brought the squeegee case it get a little greasy  
After a moment I fell into the miss  
She reminisce a nigga style, goddamn a nigga rich  
Wine and cigarettes under a light  
Said she lost that angel done turned into a hell of a night

Ohh, it's a hell of a night  
It's a hell of a night
