

# The Pressure Is On

Travis Tritt

I got someone back home  
Don't know what's been going on  
Thinks I love her and her alone  
And the pressure is on

I got a new love, you see  
She doesn't do things to me  
We sneak I love you's on the phone  
And the pressure is on

And it puts pressure on a man  
If he lets his heart cause pain  
He ain't no rolling stone  
And the pressure is on

Trains I ride in my dreams  
Run on the pressure of the blood  
Sweating muscle, man of steam  
Lord I could move on, on my own  
'Cause the pressure is on

Feels like you're ten thousand feet  
Down under some deep dark city street  
And it's crushing all your bones  
And the pressure is on

The pressure is on  
and the pressure is on
