

## Dancing On The Edge

Treat

I see a stranger when I look in your eyes  
Another face in a another time  
A taste of danger when two worlds collide  
A lonely war in the name of pride

You can't deny, you said goodbye  
And walked away  
Just like the game you always play  
With my love

I can't get, I can't get over you  
I'm dancing on the edge  
I can't get, I can't get over you  
Dancing on the edge  
I can't get, I can't get over you  
I'm dancing on the edge

You run for cover when the going gets tough  
I know you tried but you were not tough enough  
I've got the hunger, you tear me apart  
Once eye to eye but never heart to heart

I can't deny I said goodbye

And walked away  
I roll the dice of precious time  
So don't lie to me  
I can't get, I can't get over you  
I'm dancing on the edge  
I can't get, I can't get over you  
Dancing on the edge  
I can't get, I can't get over you  
I'm dancing on the edge  
I can't get, I can't get over you  
I'm dancing on the edge, the edge

I can't get, I can't get over you  
I'm dancing on the edge  
I can't get, I can't get over you  
Dancing on the edge  
I can't get, I can't get over you  
I'm dancing on the edge  
I can't get, I can't get over you  
I'm dancing on the edge  
Oh, oh, oh, oh...
