

All I Know

Tribal Seeds

Take it off for me little darling
Your presence just drives me wild
And no I'm not playing
When the loving gets feeling
I know how to work it so
Such is the music
If you just let me show
When you're feeling high
Feeling so high
Said it feels so right

And that's all I know, that's all I know
That's all I know, that's all I know
That's all I know, that's all I know

Take it down for me little darling
No I don't know how to dance your style
But I'll keep on trying
When the music gets feeling
I know how to work it so
Such is I love for you
If you just let me show
When I'm feeling high
Feeling so high
Said it feels so right

And that's all I know, that's all I know
That's all I know, that's all I know
That's all I know, that's all I know

So comfort me darling
Your love gets me crazy
So come get this healing
Your love gets me crazy
Comfort me darling
Your love gets me crazy
So come get this healing
Your love gets me crazy

And that's all I know, that's all I know
That's all I know, that's all I know
That's all I know, that's all I know
