

Right On Time

Tribal Seeds

When I come through your gates
Only good things are ahead
Any mood I may be in
Turns to joy and happiness
Now I fall like the rain
You never gonna know where the rain will fall
Fall like the rain
You never gonna know where the rain will fall

She gives me love
Every single night, every time I
I need her love
She gives it to me right on time
She gives me love
Every single night, every time I
I need her love
Come give it to me right on time
