

Surrender

Tribal Seeds

I need her more than numbers of the grains of sand
I need her more than the numbers

[Chorus:]

She's sweet from the get-go
Girl give me your love
I need your loving like the stars up above
but when she moves slow
Surrender your loving
[Repeat]

The night comes and I dream of your eyes
I'll paint your picture nice
More than any times I've seen the night come
In a portrait of sky
I gaze and wonder why I never realized the signs
That you were just falling
Trouble in your waters and your bridge barely holding
Oh my longing just to see you again
Chances still I know are very slim
Come with me again

[Chorus:]

She's sweet from the get-go
Girl give me your love
I need your loving like the stars up above
but when she moves slow
Surrender your loving
[Repeat]

I'm still fighting, still trying to get my reward, reward, reward
I'm still fighting, still trying to get my reward
Come take a walk with I again
Journey to the places and realms we never been
High above the waters of the holy mountain
All around the world and I'm still searching
But I was just falling
Trouble in my waters and my bridge is still building
Oh my longing just to feel it again
Knowing very well it's from within
Redeemed of your sins

[Chorus:]

She's sweet from the get-go
Girl give me your love
I need your loving like the stars up above
but when she moves slow
Surrender your loving
[Repeat]
