Youth of the World

In the system of Babylon they torture the yout
In the system of satan they hook and brainwash the yout
Yea now, well yea now
C'mon, saying yea now

I teach the song a rthym we play tonight
And spread the message of love come feel alright
It is mandatory to send good vibes
For the youth of the wrold, for the youth of the world

For the youth of the world, youth of the world
For the youth of the world, youth of the wolrd(2x)

So join InI chanting down babylon
For the weak can only pose, they're afraid to stand
Lets break the chains that binded us far too long
For the youth of the world, for the youth of the world

Hear the youths chanting, chanting a psalm
Hear the youths chanting down babylon
See the youths rising, rising to the top
Rising against the system, lamb to lion
Enough of them grow in the mental system
Never learn a thing in school education
Material in their temple, matreial in their heart
say babylon knows they try to set apart

Me say the youth, the youth
Chanting for youth, the youth
Me say the youth, the youth
Chanting for youth, the youth
Yea
