Trip Lee

Woke up in the morning feeling like a million dollars  
Hollering, "Can't nobody stop us, no lie"  
I'm up  
I'm dreaming 'bout the way I'm 'bout to conquer all the monsters in my way  
I'm feeling like I'm on fire  
I love that feeling when you walking in your calling  
Ain't no turning back I'm all in  
I ain't finished, just watch  
I'm up  
Probably ain't no ceiling, don't be silly  
Ain't no stealing what I'm in cause, homie this is my spot, my spot

Way up in the clouds like I'm on one  
Way up in the clouds like I'm on  
Way up in the clouds like I'm on one  
Way up in the clouds like I'm on

Woke up from my sleep and tired  
No way I wanna get up, I'm leaving my eyes like a safe  
Then I think of my dreams and I'm wide awake  
It's like a light and a beacon inside of me  
To be honest, last year was a blur  
I had a dream, but it was deferred  
I caught a beating, I'm eating the dirt  
Wondering, "Will the dreams I'm seeking emerge?"  
But that's the way dreams go  
They hurt before they heal, if you ain't know  
They take before they give, casinos  
They kill before they live, I seen those  
Desires that stay far and away, I seen those  
Fires that's never catching a blaze, I seen those  
But it's something in my soul  
That can't stop running at 100 to the goal

Woke up in the morning feeling like a million dollars  
Hollering, "Can't nobody stop us, no lie"  
I'm up  
I'm dreaming 'bout the way I'm 'bout to conquer all the monsters in my way  
I'm feeling like I'm on fire  
I love that feeling when you walking in your calling  
Ain't no turning back, I'm all in  
I ain't finished, just watch  
I'm up  
Probably ain't no ceiling, don't be silly  
Ain't no stealing what I'm in cause, homie this is my spot, my spot

Way up in the clouds like I'm on one  
Way up in the clouds like I'm on  
Way up in the clouds like I'm on one  
Way up in the clouds like I'm on  
Way up in the clouds like I'm on one  
Way up in the clouds like I'm on  
Way up in the clouds like I'm on one  
Way up in the clouds like I'm on

Guess I need another plan  
My other one is covered under sand

Buried like second day Son of Man  
I don't understand  
Another dream is deferred, and it's a nightmare now  
I thought it was destiny, I got fear now  
Piecing what's left together, I ain't clear now  
No peace in this mess, from Him I gotta hear now, hear now  
Cause man, I don't know what's even coming from the sky no more  
And what's coming from inside, oh no  
Cause I don't feel like I can fly no more  
But I can't forget the motto, motto  
No more mediocre, just getting by though  
I'm in His image, I been down for a minute  
But I'm getting up today, and I'ma fight till I'm finished

Woke up in the morning feeling like a million dollars
