Hundred racks on my fit, hundred racks on my bitch

If her ex nigga play it, girl, you know we do that to break  
Got a lot of lovin', but it's hard to get out of 'em  
Put my neck up on the line, but they just a formality  
Rip my heart up out my chest, like a fuckin' fatality  
Semi-automatic Wes', for the gang and comradery  
Give my baby girl the world and everything that's inside of it  
Got these scars up on my knuckles, and she know I'm not proud of it  
Designer pussy what she giving, she like Gucci and Prada me, yeah  
I'ma catch a body, come and suck on and slop on me  
She wanna get a friend involved, I told her it's possible  
You can't ignore the drip, girl, you gotta acknowledge it  
More than your pride, I'ma need you to swallow it  
Just a little ghetto boy with a supermodel bitch  
Pussy gon' pop and bang like hollow-tip  
Recognize those outbursts, 'cause you keep it bottled in  
That girl a spoiled brat, and that's because of him, wait  
Sippin' that drank and I'm swervin'  
Grippin' that pole, I ain't nervous  
This world ain't shit but you perfect
