

# Always Feel This Way

Tristan Prettyman

Ohh no don't you come at me  
With that look you got so down  
You got me floating like a bubble  
Ever since you came around

And even strangers seem to notice  
And all my friends can tell  
To keep you comin' I just keep on running  
But your lovin' tripped me and I fell

I hope I always  
Always feel this way  
Always feel this way

Pushin' my buttons like we're on the elevator  
Keep your eyes on this, but savin' it for later  
Cause we never rushed, and we always took our time  
Make sure to make me yours, I'll make sure to make you mine

And then we'll always, always  
Feel this way  
Always feel this way

Cause you got what I want  
You got what I need  
Baby I don't wanna settle for no other  
Can't you see  
All you need is me

To always feel this way...

So if you're wishin' on stars  
You better go out and get it  
Cause you if you want it bad enough  
You won't stop until you have it

Don't let them tell you  
What you can and cannot do  
You've got to see it through  
Like you always knew

It'd feel this way...

Always feel this way  
Never gonna change  
And always feel this way...
