

# Breathe

Tristan Prettyman

It's a confirmation for your imagination  
This type of situation goes on and on  
What to do, how to see  
When every little thing seems to get in my way

Well I can't breathe  
And I wish that you couldn't take your eyes off me  
But it's never easy as it seems, is it?  
Please, softly before I scream  
Breathe, breathe, breathe

Say you adore me  
What good could you be for me  
And after I'm gone, wondering where you went wrong  
'Cause you're only taking inches when I'm giving you miles  
Did you figure that maybe I wasn't worth your while?

Well I can't breathe  
And I wish that you couldn't take your eyes off me  
But it's never easy as it seems, is it?  
Please, softly before I scream  
Breathe, breathe, breathe

'Cause where you got me is where you want me  
Where you had me but you left me  
And let this go on for so long  
Got me where you want me  
Where you had me but you left me  
And let this go on for so long

And I can't breathe  
And I wish that you couldn't take your eyes off me  
But it's never easy as it seems, is it?  
Please, softly before I scream  
Breathe, breathe, breathe
