

# Handshake

Tristan Prettyman

Hey boy, where you leaving to?  
Always leaving all the time  
Wanna get caught up to you  
Gonna figure out how to make you mine  
Know I love it when we're together  
Don't it always feel so right?  
Love to fall asleep when you hold me  
Wake up and make love in the morning time

Hey boy, how come you feel this way?  
For a little longer I'll try to make you stay  
Don't want to break their hearts but if you don't they'll break you down  
You'll wanna fall apart  
Girls go wild for your east coast style  
Happened more than once in a while  
Think I know just where you're coming from  
Up against the wall with my clothes coming undone

Sayin' love is a funny thing  
When you've taken more than you can bring  
Sayin' love is a funny thing  
When you're caught up in the moment  
'Cause boy I got your love right here  
Don't blow it  
No baby don't you blow it

'Cause I'm picking up the pieces that you left behind  
It ain't so easy when you've flooded my mind  
I try to stay steady but I loose my grip  
You've got the kinda love that ain't easy to quit  
Never hesitate to be taking it slow  
You've got the moves to be puttin' on one hell of a show  
When you stop by you never let me know,  
By the end you've got me begging, baby please don't go

Sayin' love is a funny thing  
When you've taken more than you can bring  
Sayin' love is a funny thing  
When you're caught up in the moment  
So boy got your love right here  
Don't blow it  
No baby don't you blow it

Wanna offer up a little proposition  
For when you can't be with the one you love kissing  
In your heart there's a reason that you need it  
This kind of love is a handshake agreement  
Start it slow see where it goes  
Most of the time you you never really know  
Love can take you to some beautiful places  
Lighten up the lives of a hundred thousand faces  
Lighting up the lives on some faces

Sayin' love is a funny thing  
When you've taken more than you can bring  
Sayin' love is a funny thing  
Don't get caught up in the moment

So boy got your love right here  
Don't blow it  
No baby don't you blow it
