

Hummingbirds

Tristan Prettyman

Take all the time you need
We get distracted all the time
And lately I can't stand sleep
Yeah, I got clouds in my eyes

Wake up wake up
How did we get so far
Wake up wake up
Away from where we are
Time stands still in the hours of the night
I couldn't get this right if I tried

Hummingbirds don't make a sound
They're gone as fast as they came
And love is swarming all around
But it still looks the same to me

Wake up wake up
How did we get so far
Wake up wake up
Away from where we are
Time stands still in the hours of the night
I couldn't get this right if I tried

Wake up wake up
How did we get so far
Wake up wake up
Away from where we are
Time stands still in the hours of the night
I couldn't get this right if I tried
