

You Must Bleed/All Night Long

Turbonegro

Dressed up in studs and leather
Pushed up against a wall
I wanna see you shake your tail feather
Shift to the banging roll

I got no time for love but you just grab the bait
When you come down I'll be a thousand miles away
All night long, you must bleed, bleed for me
Good for you, good for me

All night long, you must bleed, all night long

Some think I'm the denim devil, stardust anti-christ
When I deport off der Nacht and Nebel, I'm a bubble gum 3rd Reich
You'd like to see me face down in empty swimming pool
but I'm still here, so what you gonna do? fuck you

All night long, you must bleed, bleed for me
Good for you Good for me
All night long, you must bleed, all night long
All night long, gonna wear my thong, all night
I'm coming on strong, I been singing my song
I'm the right and the wrong, you be singing my song

oooh ahhh oooh all night long, ahhh
(I love Norwegian girls, because they are... beautiful pussies,
love them)
