```
You thought it was gone but the fire goes on
And I thought you knew me, I told you before
Till 1 settle the score that 1'll never run free
1 have enough pain and anger in my brain to last many lifetimes
Yet still it grows and the more that it shows, I won't have pea
ce of mind
The fire, the fire still burns
The fire, the fire still burns
1 have a dream and as strange as it seems
There's no embers glowing
The fire's gone out and there's no need to shout
'Cause no anger's showing
But it's not true, nothing I ever do seems to ease my fury
Get out of my way, 1'm the hangman today and the judge and jury
The fire, the fire still burns
Fire, fire, still burns, fire, fire, still burns
The fire, the fire still burns
The fire, the fire still burns
The fire, the fire still burns
```

The fire, the fire still burns The fire, the fire still burns The fire, the fire still burns
