

## We Are Us

### Twisted Wheel

Hey you, what do you know?  
There's something weird on the radio,  
Turn it up, play it again,  
It kept you quite and it made my day.

You're you, you do what you do,  
But there's a rain cloud hangin over you.  
I'm me, who else could I be?  
If they turn around then I walk away.

You will never stop us,  
Cos you are you, we are us.  
You will never change us,  
Cos you are you, we are us.

Once out, you was out of your cage,  
Then you got lost, you was lost in a maze.  
And that's how, you figure it out,  
You got to get lost so you can get found.

You're you, you do what you do,  
But there's a rain cloud hangin over you, yeah.  
I'm me, who else could I be?  
If they turn around then I walk away.

You will never stop us,  
Cos you are you, we are us.  
You will never change us,  
Cos you are you, we are us.

You will never stop us,  
Cos you are you, we are us.  
You will never change us,  
Cos you are you, we are us.

La la la la la la la...

You will never stop us,  
Cos you are you, we are us.  
You will never change us,  
Cos you are you, we are us.

La la la la la la la...
