

Willie

Two Gallants

Willie sweet Willie where did you go,
Riding 'round the town on a drunken spree,
If I did you wrong won't you let me know,
And if I did you good then have a drink on me.

Well I've known you baby since you was a child,
Your hair all curly and your eyes a dream,
You know your kisses still drive me wild,
Why d'you gotta treat me oh so mean?

Willie sweet Willie where did you go,
Riding 'round the town on a drunken spree,
If I did you wrong won't you let me know,
And if I did you good then have a drink on me.

So why you gotta go and be oh so coy,
Burning down the town in that limousine,
I know you been flirting with the other boys,
But if you come back home I'll treat you like a king.

Willie sweet Willie where did you go,
Riding 'round the town on a drunken spree,
If I did you wrong won't you let me know,
And if I did you good then have a drink on me.

Willie sweet Willie where did you go,
Riding 'round the town on a drunken spree,
If I did you wrong won't you let me know,
And if I did you good then bring it back to me.
