

# Work It Out

Tye Tribbett

Doesn't matter what the problem  
God will work it out  
Any type of situation  
He will work it out  
I don't have no doubt  
God will work it out  
Work it work it out  
Work it work it work it out  
Work it work it out  
Work it work it work it out

Winter spring summer fall  
Trouble keep coming out of nowhere  
Doesn't have respect at all  
Somebody going through it somewhere  
Wonderin' what you're gunna do  
Wonderin' if you're gunna make it  
Wonderin' how long it will take  
And will you ever get through  
Can't see the light of day nowhere

The enemy tryna make you feel like pain will be always  
But you know like I know that trouble will never last always  
So hold ya head up high  
'Cause God is on your side  
And He loves you  
And He cares  
He's so faithful  
Never fails

Doesn't matter what the problem  
God will work it out  
Any type of situation  
He will work it out  
Trust me He got all power  
God will work it out  
Work it work it out  
Work it work it work it out  
Work it work it out  
Work it work it work it out

Seem like everybody else  
Doin' so much better than you  
They just got it all together  
And you just tryna get through you  
Don't see no results  
Not laughing it's not a joke  
'Cause I'm telling you if God don't come through with something  
I must just...I don't know

The enemy tryna make you feel like this will be always  
But you know deep down that you gotta come out of this someday  
So hold ya head up high  
God is on your side  
Hold ya head up high  
God is on your side  
And He loves you

And He cares  
He's so faithful  
Never fails

Doesn't matter what the problem  
God will work it out  
Any type of situation  
He will work it out  
Nothing too hard for God will work it out  
Work it work it out  
Work it work it work it out  
Work it work it out  
Work it work it work it out

Be not dismayed whatever betide  
God will take care of you

Work it out  
I believe without a doubt that my God will surely  
Work it out  
He done brought me out before so I know for sure He will  
Work it out  
No problem too big for my God 'cause he will  
Work it work it out  
Work it work it work it out  
Work it out  
I believe without a doubt that my God will surely  
Work it out  
He done brought me out before so I know for sure He will  
Work it out  
No problem too big for my God 'cause he will  
Work it work it out  
Work it work it work it

Work it out  
Trust me He's the same and He done did it for me  
Time and time again He opened doors for me  
Work it out  
I will never ever doubt His love for me  
How could I ever doubt His love for me  
Work it out  
Never let me down so I can praise 'em like  
I know without a doubt He'll work it out like  
Work it work it out  
Work it work it work it out

Work it out  
No doubt He will  
Work it out  
No doubt He will  
Work it out  
No doubt He will  
Work it work it out  
Work it work it work it out  
Work it work it out  
Work it work it work it out  
Work it work it out  
Work it work it work it out  
Work it work it out  
Work it work it work it out
