

You Can Change

Tye Tribbett

I know you can change if you want
Your change is right here & now
If you want

I know you can change if you want
Your change is right here & now
If you want

There's is no problem to hard
That Jesus can't fix
There's no habit so strong
That Jesus can't brake

There's is no problem to hard
That Jesus can't fix
There's no habit so strong
That Jesus can't brake

I know you can change if you want
Your change is right here & now
If you want

You don't have to live that life no more
You don't have to drink that wine no more
You don't have to smoke that weed no more
You don't have to sell your body no more

Listen Tye
What if they don't want to change
What if they just stay the same
What if they don't change their mind
What if we're just wasting time
(what if we're just wasting time)

Well G.A. wasn't you in their shoes
Yes
Didn't you have to choose
Yes
What did you have to loose
Nothing
Didn't he change your life around
Yes
Can he do it for somebody else right now
Yes
Tell them there is better way

There is a better way
There is a better way
There is a better way
There is a better way

You can change if you want
If you want
You can change
If you want
If you want
You can change

If you want
If you want
You can change
If you want
If you want
You can change
