

## Danger in Paradise

Tygers of Pan Tang

Fire in the sky  
Cause she hung me out to dry  
And the tears I cry are falling like the rain

Tried to visualise just how she's done it  
I acted like a kid outta school  
She just played the game and now she's won it  
And I just played the fool.

I'm in danger in paradise  
Livin' in the sun and feeling cold as ice  
I'm in danger in paradise  
My castle's in the sand will soon be sacrificed  
To the sea

Letters in the sand  
Written by devils hand  
But my eyes were blind couldn't read the prophecy

Tried to visualise just how she's done it  
I acted like a kid outta school  
She just played the game and now she's won it  
While i just played the fool

I believed i found you  
Caged without a friend  
The world i built around you  
Is crashing to its end
