

## Dark Rider

Tygers of Pan Tang

On a quest - on a ride  
Through the darkness of the night  
Out for something hard to find  
A secret jewel hidden in someone's mind

In the woods you will find - a shining secret lights up  
the sky

Dark Rider - burning wheels of fire  
Kickstart your heart, feel your engine reviving higher  
Dark Rider - like a demon screaming by  
You gotta ride to live, ya gotta live to ride

As the full moon shines  
Hear the winds whispers in the wild  
Holy silence, Devil's delight  
He's on the streets somewhere outside

If you dare to high - His laugh will blow your mind

On a quest - on a ride  
Through the darkness of the night  
Holy silence, Devil's delight  
He's on the streets somewhere outside

In the woods you will find - a shining secret lights up  
the sky
