

Never Give In

Tygers of Pan Tang

Tensions getting higher, feet don't touch the ground
Lights keep on flashing but we can't hear a sound
Lightning cracks the sky the prophecy was right
They're coming to get us Armageddon has arrived

They want us - They need us
Get ready to fight to survive
Are we dead or alive?
Are we dead or alive?

If ever there was a reason history will prove
Few have the guilt we all pay their dues
Truth is almost buried in barrels of blood stain oil
For the greed for money we lost the sense of joy

They want us - They need us
Get ready to fight to survive

Hear the freedom call blowin' in the wind
Hear the freedom call we never give in
We never never give in

Tensions is getting higher but we now clearly see
Destruction may be coming but fear will never win

They want us - They need us
Get ready to fight to survive

Hear the freedom call blowin' in the wind
Hear the freedom call we never give in

Solo

They want us - They need us
Get ready to fight to survive

Hear the freedom call - blowin' in the wind
Hear the freedom call - we never give in
We never never ...
