

Cultural Phenomenon

Tyler Ward

I bet you like to say my name at night
When you're lying next to him so tight
Dr. Phil's endorphins are prescribed
No amount of them can keep you high
Like me cause you know I'm just your type
Rocket packs won't even make you fly
Gravity is keeping you alive
Even with those Katy Perry Eyes

You're wrong
I'm Gone
Cultural Phenomenon
It's Whack
the deck is stacked
Like disco I ain't coming back

If you take just one more step towards me babe
LAPD throws the keys away
Snookie even hopes for better days
You better not cross me
Back door allies never seem the same
Since I saw you waiting in the rain
Dubstep diva signed on for the fame
You better not cross me

You're wrong
I'm Gone
Cultural Phenomenon
It's Whack
The deck is stacked
Like disco I Ain't coming back

I told you once
I'll tell you again
Stop coming round with your fake boyfriend
Yeah I know this drives you crazy!
