

# Drive

Tyler Ward

Heart race  
Like driving on the interstate  
Your face  
Is something that I can't replace

I can't go home  
Now that I found you, I  
Can't be alone, can't be without you so  
I grab my phone, I'm pulling in your driveway  
So what do you say?

What if we just fell in love for the thrill of it?  
What if we just stayed out all night?  
Baby, your touch, I can't get enough of it  
Baby, you set my heart on fire  
Reminding myself to take it slow  
Can't keep my eyes on the road  
What if we just fell in love for the thrill of it tonight?

What if we just drive, drive?  
What if we just drive, drive?

Hear me out  
You and me could run this town  
Till the road runs out  
Forget all your problems  
'Cause I really want to

See the sunrise  
Reflect your eyes  
From the top of the palisade  
Baby say my name

What if we just fell in love for the thrill of it?  
What if we just stayed out all night?  
Baby, your touch, I can't get enough of it  
Baby, you set my heart on fire  
Reminding myself to take it slow  
Can't keep my eyes on the road  
What if we just fell in love for the thrill of it tonight?

What if we just drive, drive?  
What if we just drive, drive?

I can't go home  
I can't go home  
I can't go home

I can't go home  
I can't go home  
I can't go home

What if we just fell in love for the thrill of it?  
What if we just stayed out all night?  
Baby, your touch, I can't get enough of it  
Baby, you set my heart on fire  
Reminding myself to take it slow

Can't keep my eyes on the road  
What if we just fell in love for the thrill of it tonight?

What if we just drive, drive?  
What if we just drive, drive?  
What if we just drive, drive?  
What if we just drive, drive?
