

# I Don't Wanna Miss This

Tyler Ward

In the middle of the night she calls my name  
I swear I hang on every word  
Her voice like lighting and thunder  
It's her spell I'm going under  
In the middle of the night she calls my name

And it feels so good  
When I'm in her arms  
Like a child  
Who's safe from harm

I don't wanna  
Miss this  
I don't wanna  
Mess this up

I see the sun set down on your smile  
This is where I lay my fears back down  
You're the song that I'm singing  
Your my end and beginning  
I see the sun set down on your smile

And you save me now  
Like you saved me then  
And you showed me how  
To feel again

I don't wanna  
Miss this  
I don't wanna  
Mess this up
