

# Keep It Together

Tyler Ward

Is it really all they say it is?  
I'm trynna make sense of this  
They always say  
'Never join the Circus'  
Will they really take care of me  
Love me like I wanna be  
I've heard befor this life can leave you empty

It's hard to see it from the bottom  
When your light is still shining  
It's time for you to hurry up now  
'Cause you're time is rising  
It's hard to see it from the bottom  
When you wanna give up now  
You gonna keep goin'  
'Cause your time is rising

Oh You feel it comin' down  
You feel it fallin' down  
You gotta keep yourself together  
Oh You feel it comin' down  
You feel it fallin' down  
You gotta keep yourself together

Is it really what they say it is?  
I feel it gettin' breathless  
They always say  
The Camara is Contagious

Will the Room start to cave in  
When my steps start shiftin  
I've heard before don't lose what you belive in

It's hard to see it from the top now  
When the light is just blinding  
No time to close your eyes now  
No time for hiding

It's hard to see it from the top now  
When you wanna fall back down  
Oh you gotta keep climbing  
'Cause your time is rising

Oh you feel it comin' now  
(This is your come back, come back ,come back ,don't look back)  
You feel it fallin' down  
You gotta keep yourself together  
(This is your come back, come back ,come back ,don't look back)  
Oh you feel it comin' now  
You feel it fallin' down
